

THE DEPUTY DIRECTOR OF CENTRAL INTELLIGENCE

7 July 1976

STATINTL

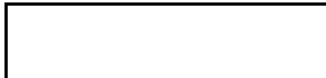

Dear Nancy:

I am very late in thanking you for that nice telephone call you gave me on the occasion of my new appointment. I had wanted to await the confirmation process and being sworn in before writing to you.

I know that the Agency will have its problems in the future, but I think the opportunities will outnumber the difficulties. One of the reasons I feel this way is because of the great talent and capability of the people who work in this great Agency. You are one of the contributors in this regard. I always enjoyed our association. I know that you will continue to play a key role in the Agency's work and I wish you all the best.

Faithfully yours,

E. H. Knoche
